CAMP SANDE WARE MILITARY BARRACKS  
CAREYSBURG, MONTSERRADO COUNTY**

09 Jan 12

HQ AFTC

**LETTER OF REMINDER FROM SSG TOLBERT, MELVIN K. (E-2006-261417)  
ON HEALTH AND RELATED ISSUES ORIGINATING FROM VOLUNTARY  
SEPARATION FROM THE SERVICE.**

1. I write to remind you about my health and some related issues regarding my separation from the service.
2. It can be recalled that on **14 Sept 2011**, I sent a communication to AFL HQ to facilitate my surgical operation from grenade blast in which I sustained injuries while saving the life of a recruit during training of the **AFL Recruit Class 06** at the **Armed Forces Training Command Barracks 13 May 2009**.
3. **On 27 Oct 2011**, I sent a letter of Voluntary Separation from the service due to family problems and other related issues to name few (**Medal of Bravery and citation**). No action yet.
4. **On 28 Oct 2011**, I forwarded a recent medical report at AFL HQ concerning my health for possible surgery but yet to received feedback. This incident had since been two years eight months with no attention shown me as a soldier. I am being hurt on a daily basic and authority is playing with my health. Concern is being drawn by my family members and some eminent people of the society regarding my health. If there is no means of authority facilitating the cost of sending me to foreign country as it was stated in the medical report for the surgery, let me be informed and then I can get my family and lawyer involves finding solution to my problem. I am afraid of developing cancer.
5. Sir, please see reason and prevail on those stakeholders responsible for such matter to take my health and other issues seriously.

6. This is respectfully forwarded for your official consideration and further action Sir.

M K TOLBERT  
SSG AFL/AFTC
